Indira Gandhi National
Open University (IGNOU)

PROFESSIONAL SUMMARY

Aspiring Data Analyst with hands-on experience in Excel dashboard development, data cleaning, Power Query, and business reporting. Skilled at transforming raw data into interactive dashboards that drive business decisions. Currently expanding expertise in Power BI, SQL, and Python.

KEY PROJECTS

HR Employee Attrition Investigation Dashboard | *Excel, Power Query, Power Pivot*

- Cleaned and transformed raw HR data into a structured, analysis-ready dataset.
- Built an interactive dashboard with KPI cards and dynamic charts to track attrition.
- Analyzed attrition trends across departments to surface root causes.
- Delivered actionable insights that supported HR decision-making.

Sales Performance Dashboard | *Excel, Power Query, Pivot Tables, Power Pivot*

- Cleaned and transformed sales data using Power Query for reporting accuracy.
- Built an interactive dashboard analyzing sales, profit, orders, and regional performance.
- Developed KPI cards and dynamic visuals for executive-level business reporting.
- Identified top-performing products, regions, and sales trends to guide strategy.
