Data Analyst / MIS Reporting / Power BI Developer

I am an aspiring Data Analyst with hands-on experience in Excel, data cleaning, dashboard creation, Pivot Tables, Power Query, and business reporting. I enjoy transforming raw data into meaningful insights and interactive dashboards. Currently learning SQL and Power BI to strengthen my analytics skills and build end-to-end data projects.

Skills:

- Advanced Excel
- Power Query
- Dashboard Development
- DAX
- Data Cleaning & Transformation
- Power BI
- SQL (PostgreSQL) (Learning)
- Tally ERP/Prime

PROJECTS

Lending Club Loan Analysis — Power BI

07/2026 – 08/2026

LendingClub Loan Analysis Dashboard

- Built a **3-page interactive Power BI dashboard** analyzing approximately **10K loans worth \$163.62M**.
- Developed KPI measures for **current loans, problem loans, problem loan amount, principal paid, interest earned, remaining balance, and average interest rate**.
- Analyzed **repayment risk and portfolio performance** across loan status, DTI groups, loan purpose, grades, income groups, and ownership filters.
- Identified key portfolio trends, including **93.75% current loans, 1.78% problem loans, and Debt Consolidation accounting for 51.44% of loans**.

Employee Attrition Investigation Dashboard

Developed an interactive HR Analytics dashboard in Microsoft Excel to investigate employee attrition patterns. Performed data cleaning using Power Query, built Pivot Tables and Power Pivot models, and generated business insights through KPI analysis and interactive visualizations. The project identifies key attrition trends across departments, job roles, tenure, income, overtime, and job satisfaction to support data-driven retention decisions.

Interactive Superstore Sales Analysis Dashboard

Built an interactive sales dashboard using Excel, Power Query, Power Pivot, Pivot Tables and Pivot Charts. Analyzed 9,994 sales records across categories, regions, customers, discounts and returns. Developed KPI reporting and business insights to identify profitability drivers and business trends.
